

Open Source Classroom LLC
3D Literacy + Creativity = Innovation

Presents:

3-Day Build Your Own CNC Milling Machine Workshop

Don't just learn how to use technology, learn
how to *create* it!

This 3-day workshop provides teachers with an opportunity to build one of the most advanced open source CNC mills available while greatly expanding their understanding of CNC technology.

What teachers take away from this workshop:

- High quality OSC MicroMill V2.0 was designed specifically for use in educational settings
- Increased confidence when integrating CNC milling activities into their existing curricula
- CNC Mill in the Classroom User Manual
- 3D Literacy® Curriculum Guide with example lesson plans and free CNC Milling educational resources to be shared with their students
- CNC Milling tool kit including high quality tools for OSC MicroMill V2.0 assembly and ongoing maintenance
- 4 Custom Fixtures provided for various milling materials

Earn 24 CPDU's with
the most advanced
training on CNC
milling technology for
K12 educators

3-Day Workshop Costs:

Participants	\$675
CNC Micro Mill Kit	\$3000

- Day 1 < CNC Micro Mill Components and Sub-assemblies
- Day 2 < CNC Micro Mill Assembly and Calibration
- Day 3 < Operation, Classroom Management, Maintenance

If you are interested in participating in a "Build Your Own CNC Mill" workshop, please contact your administration.
